

HILACO
TRUST IN MOTION

Greetings from our **Green farm** :)

“ HilaCo is the art of exporting ”

The HilaCo farm's story is about a child who once walked through a field of tiny plants, laughing and touching them! With his little hands, he planted seeds in the heart of the soil, and he lullabies them with his childish talks. And now they're like fruitful trees, with all the joy and delight of children seen in the fruit they yield each year!

It symbolizes all of the labor and hardship put in by the hands that created acts of kindness under the Farm's naturally rich soils, along with the warm days and cool nights, produce ideal growth conditions for the great snack-heart-healthy nuts that are a fantastic source of fiber that are beloved by people all over the world.

And today, as a result of our sincere efforts with love, from the bottom of our hearts, and in appreciation for the kindness that has been shown on our farm to consumers all over the world, we are the Hilaco Connection Bridge.
